⚠ Conditional Approval - Additional Requirements

Your application shows potential, but meets certain conditions. With a credit score of 700.0 and DTI of 45.0%, we recommend improving these metrics before formal submission.

Timeline: Reapply after 3 months of improvement

📋 How to Improve Your Chances

1. Debt-to-Income Ratio (DTI)

HIGH

Current: 45.0% → Target: 35% or below (Gap: 10.0%)

Timeline: 3-6 months

- Increase your income (salary increase, side income, bonus)
- Pay down existing debts aggressively
- Consolidate high-interest debts to lower your monthly payments
- Avoid taking on new debt before applying

Next Steps

1. Review the improvement opportunities above carefully
2. Create a 6-month improvement plan focusing on your highest priority items
3. Monitor your credit report monthly for errors and disputes
4. Once improvements are made, reapply for loan approval
5. Contact our support team for personalized guidance: support@creditpath.ai
